

Bar|Scan[®] IT Integration

Looking for a better barcode tool for your IT asset inventory?

Make sure that your IT physical inventory is accurate before updating your repository.

- ✓ Bar|Scan[®] has extensive inventory validation built-in. Never worry about a duplicated serial or asset number again.
- ✓ Bar|Scan has an easy to use Report Generator for physical inventory audits.

Bar|Scan can work on most Microsoft[®] Pocket PC or Windows[®] CE mobile devices, not just one or two.

- ✓ Choose the right hardware for your unique environment, not just one vendor's offering.
- ✓ Bar|Scan supports Wi-Fi and RFID ready devices.

Bar|Scan adds total flexibility to data collection with your mobile device.

- ✓ Easy to use configuration tool for device prompting.
- ✓ Change the device prompting at any time, no obsolescence.
- ✓ Choose which data elements to download into the device.
- ✓ Build and keep multiple configurations for different IT functions, e.g. receiving, audit, disposal.

Bar|Scan is easy to integrate with your asset repository.

- ✓ Supports ODBC, CSV, XML, Excel, and other file interface formats.
- ✓ Menu driven import and export generation, no programming required.
- ✓ Use XML scripting to launch your import and export instructions.

Bar|Scan can adjust to your changing needs.

- ✓ Add, change and delete fields as your requirements change.
- ✓ Modify your imports and export instructions quickly to meet new requirements.

Bar|Scan is an easy to implement, low cost solution.

- ✓ Bar|Scan is self contained, fully documented system. It can be ready to use in minutes.
- ✓ Need manpower for an IT inventory? Our experienced staff can handle the job.
